Subject: Please keep Walmart out of the Banking Industry

Allowing Walmart, already the worlds largest retailer into the banking industry is a very dangerous prospect. This company has already proved that it will do anything wether it is legal or not, ethical or not, to continue on its quest to drive all other retailers out of business. Do we really want to give them the opportunity to drive the small local banks out of business? This would then allow them to withdraw capital from local small business start-up companies who might threaten their other interests. As an American who strongly believes that the small business is the backbone of our country please do not allow this to happen!

Thank you for your time and Consideration.
